You will pay fees and costs whether you make or lose money on your investments. Fees and costs affect the value of your account over time. Please ask your financial professional to give you personalized information on the fees and costs that you will pay.

The asset-based fee reduces the value of your account and will be deducted from your account. Asset management services are charged a percentage fee based on the value of your account (asset-based fee). Illiquid investments are charged based on initial investment. U.K. pension transfer services are charged an initial percentage fee based on the value of the transfer for initial analysis and an ongoing asset management fee. Financial planning and consulting services incur fixed or hourly fees. Fees are charged quarterly or monthly.

Our fees vary and are negotiable. The amount you pay will depend on the financial professional you have selected, program in which you participate, services you receive and the amount of assets in your account.

The more assets you have in the advisory account, including cash, the more you will pay us. We therefore have an incentive to increase the assets in your account in order to increase our fees. You pay our fee even if you do not buy or sell and whether your account increases or decreases. Your financial professional has a direct interest in the fees charged to you and therefore has an incentive to maximize your fee.

Description of other fees and costs. You will pay transaction fees when we buy and sell investments for you and fees to any custodian holding your assets. The most common categories of fees and costs applicable to your account include: custodian fees, account setup and maintenance fees, fees related to mutual funds and variable annuities, and other transactional and product-level fees assessed by products, platforms, or custodians. Some investments (such as mutual funds, variable annuities, and alternative investments) impose additional fees that will reduce the value of your investment over time. Also, certain investments such as variable annuities and insurance wrappers

charge you surrender charges to sell or exit. Defined benefit UK pension schemes over £30,000 incur the cost of an FCA regulated advisor to provide a transfer analysis report.
